Kelly, I haven't heard from anyone at Asgrove regarding the bond. However, since the bond for this site is held by the Bureau of Land Management (Salt Lake Field Office) they may have been contacted.

Any official request for surety release should be directed to the BLM (Steve Allen is overseeing your project for the BLM) and cc'd to me at DOGM.

I am in the process of drafting a letter to the BLM and will cc you that will authorize the BLM to release all but \$3,000 of the surety at this time (we need to hold the \$3,000 for a couple years to cover reseeding costs, should it be necessary to do so)

Have you heard from anyone from Ash Grove Cement about the Grouse Creek Mine bond? Someone besides me should be working with you on this. If they don't start real soon, then I will.
